PROFESSIONAL SUMMARY

Recent BBA graduate with one year of hands-on experience in full stack web development. During the COVID-19 pandemic, I discovered a passion for coding and completed comprehensive training in HTML, CSS, JavaScript, React, Node.js, and Python at Pro Stack Academy. Over the past year at Greet Labs PVT LTD, I've gained valuable experience working on diverse web projects and collaborating effectively in team environments. I'm eager to leverage my blend of business and technical skills in a full stack developer role, contributing to innovative projects and ongoing learning.

EDUCATION

Bachelor of Business Administration (BBA)

April - 2022

Dharmamurthi Rao Bahadur Calavala

Cunnam Chetty's Hindu College

First class with 78%

TECHNICAL TRAINING

Prostack Academy, Bangalore

March 2023 - November 2023

Python Full Stack Web Developer

Project 1: Full Stack Food Delivery App

Description: Developed a comprehensive food ordering website and app using React JS, MongoDB, Express JS, Node JS, and Stripe payment gateway.

Features Implemented:

- ❖ Created frontend website, admin panel, and backend server components.
- ❖ Implemented user authentication system for account creation and login.
- ❖ Integrated shopping cart functionality for adding food items and placing orders.
- ❖ Utilised Stripe payment gateway for secure online payments.
- ❖ Implemented order status update features for enhanced user experience.

Project 2: Full Stack ShopCART E-Com Website

Description: Developed a comprehensive eCommerce website using the MERN stack - React JS, MongoDB, Express, and Node JS.

Features Implemented:

- ❖ Created frontend website to display products, product cart, and login/registration pages using React JS.
- ❖ Developed a backend server using Express and Node JS to handle APIs for various functionalities.
- ❖ Implemented CRUD APIs for adding, displaying, and updating products, as well as managing cart items and user authentication. Utilised MongoDB for efficient data storage and retrieval.
- ❖ Designed an admin panel for managing product inventory and updates.

PROFESSIONAL EXPERIENCE

GREET LABS PVT LTD (Junior Developer)

January 2024 - Present

Full Stack SWIFTCART E-Commerce Website

- ❖ **Frontend:** Developed using modern technologies like HTML5, CSS3, JavaScript, and Bootstrap 4 for a responsive, user-friendly interface.
- ❖ **React:** Utilised React components with Redux for state management, implemented a currency formatter, custom toast notifications, and category-based filters.
- ❖ **Backend:** Built using Java Spring Boot to handle API requests for managing products, ratings, and user data.
- ❖ **Azure:** Integrated Azure services for GET, POST, and DELETE operations.
- ❖ Created dynamic product categories, wishlist features, and implemented a currency formatting utility.

TECHNICAL SKILLS AND INTEREST

- **Languages:** Python, JavaScript, HTML, CSS
- **Libraries:** React.js, Redux, TailWind, Bootstrap
- **Web Dev Tools:** VScode, Git, Github, Postman, Jupyter Notebook
- **Frameworks:** Node.js, Express.js, Django, FastAPI
- **Databases:** MongoDB, MySQL
- **Areas of Interest:** Web Development, Frontend Developer, Backend Developer
- **Soft Skills:** Problem Solving, Self-learning, Adaptability, Quick Learning
